6  You are running SAS 9. Some SAS 8 files will be automatically converted
7  by the V9 engine; others are incompatible.  Please see
8  http://support.sas.com/rnd/migration/planning/platform/64bit.html
9
10 PROC MIGRATE will preserve current SAS file attributes and is
11 recommended for converting all your SAS libraries from any
12 SAS 8 release to SAS 9.  For details and examples, please see
13 http://support.sas.com/rnd/migration/index.html
14
15
16 This message is contained in the SAS news file, and is presented upon
17 initialization.  Edit the file "news" in the "misc/base" directory to
18 display site-specific news and information in the program log.
19 The command line option "-nonews" will prevent this display.
